RE: Pending Procedural Correction

IMPORTANT: ACTION REQUIRED

- I've reviewed FOIA where relief can be granted.
- **Governmental agencies or instrumentalities disclosure of records with matching agreements for disbursement to authorized persons may not have been disclosed correctly.**
- This disclosure notice may be the only one your company receives.

Derecognition is the removal of a previously recognized financial asset or financial liability from an entity's balance sheet. A financial asset should be derecognized if either the entity's contractual rights to the asset's cash flows have expired or the asset has been transferred to a third party (along with the risks and rewards of ownership). If the risks and rewards of ownership have not passed to the buyer, then the selling entity must still recognize the entire financial asset and treat any consideration received as a liability.

Pursuant to Electronics Signatures In Global And National Commerce that states in part, **(d)RETENTION OF CONTRACTS AND RECORDS (1)ACCURACY AND ACCESSIBILITY** If a statute, regulation, or other rule of law requires that a contract or other record relating to a transaction in or affecting interstate or foreign commerce be retained, that requirement is met by retaining an electronic record of the information in the contract or other record that **(A)** accurately reflects the information set forth in the contract or other record; and **(B)** remains accessible to all persons who are entitled to access by statute, regulation, or rule of law, for the period required by such statute, regulation, or rule of law, in a form that is capable of being accurately reproduced for later reference, whether by transmission, printing, or otherwise.

(A) Preservation of consumer protections

Nothing in this subchapter affects the content or timing of any disclosure or other record required to be provided or made available to any consumer under any statute, regulation, or other rule of law.

No money shall be drawn from any treasury, but in consequence of appropriations made by contract agreements or trust held for other purposes.

Governmental agencies or instrumentalities are not under statutory or regulatory compliance to notify Individuals when third parties operational procedures that cause unexpected events not in the Individuals interest. Asymmetric information, also known as "information failure," occurs when one party to an economic transaction possesses greater material knowledge than the other party.

WALKER GLOBAL INDUSTRIES, LLC Has Located Pending Contracts And Records For Settlement And Closure in Your Organization Name And We're 97.4% Convinced They Belong to You.

What clients say about WALKER GLOBAL INDUSTRIES, LLC.

Clients are paying for our time on research, our deliverables information. Clients are paying for the results and outcomes created by leveling the playing field with asymmetric information disclosure.

Regards
